ICPSR Processing Note

1. ICPSR has compiled this codebook from materials provided by the principal investigators and from materials prepared by ICPSR. The codebook comprises seven parts. The first part contains errata and additional notes provided by the principal investigators. The second part is a data map, generated by ICPSR, which gives the column locations of variables in the data file. The third part contains the "Variable Name/Questionnaire Item Cross-Reference List," provided by the principal investigators. The fourth part is a listing, generated by ICPSR, of the coding schemes for the variables in the data file. The fifth part is the questionnaire, which was provided by the principal investigators. The sixth part comprises the study credits, provided by the principal investigators. The seventh part contains a list of industry and occupation codes, which was extracted by ICPSR from the following codebook:

Davis, James Allen and Tom W. Smith. "General Social Surveys, 1972-1994: Cumulative Codebook". Chicago, IL: National Opinion Center, University of Chicago (1994).

2. The questionnaire is comprised of 11 interviewer sections, plus four respondent self-administered questionnaires, and interviewer instructions. The order of these sections within this codebook is as follows:

Section 1 -- Demography
Self-Administered Questionnaire 1 -- Income
Self-Administered Questionnaire 2 -- Aids Vulnerability
Section 2 -- Marital and Cohab
Section 3 -- Fertility
Section 4 -- Partner Identification and 1 Year Sexual Activity
Section 5 -- Last Event
Section 6 -- Lifetime Sexual Activity
Section 7 -- Fantasy
Self-Administered Questionnaire 3 -- Masturbation
Section 8 -- Childhood, Adolescence, and Sexual
Victimization
Section 9 -- Physical Health
Section 10 -- Attitudes
Self-Administered Questionnaire 4F -- Sexual Activity:
Female respondents
Self-Administered Questionnaire 4M -- Sexual Activity:
Male respondents
Section 11 -- Interviewer Comments
Interviewer Instructions

3. The seventh part of this codebook contains the coding schemes for following variables:

OCC, PAOCC, SPOCC1-SPOCC4, IND, PAIND, SPIND1-SPIND4

Part One

E R R A T A

This version of the National Health and Social Life Survey (1992) is not identical to a previously released version. A few variables have been added, minor formatting changes have been made, the wording of the variable and value labels differ in style, and minor changes have been made to the data to reflect a small number of coding errors that have come to the researchers' attention.

All but two of the previously unreleased variables correspond to items in section 11 ("Interviewer Comments") of the questionnaire. These two variables are LEDATE (the date at which the respondent last had sex) and INCCATZ (an alternate measure of family income, discussed below).

A few of the items in the questionnaire are not available for public release for reasons of confidentiality. Most of these variables are included in some aggregated form. For example, items that were originally recorded using specific (month, day, and year) dates have been converted to "century months", where a century month is calculated as the number of months since January 1900. City and state variables have been recoded to the census region level.

In addition, this dataset contains variables which are not taken directly from the questionnaire. They have been constructed from various sources, including the interview screener, sampling information, and rosters discussed in sections 2 and 4 of the questionnaire.

The NHSLS sample is comprised of two components: a cross-section sample of 3159 cases (designed to give each household an equal probability of inclusion) and a supplementary sample of 273 cases drawn to increase the number of Blacks and Hispanics available for analysis. The sample components can be distinguished by using the variable:

SAMPLE Coded 1=Over-sample, 2=Cross-section

For household level measures, the cross-section sample is self-weighting. For individual level measures, the following item can be used to construct a weight to adjust for individual level differences in selection probability:

HHSIZE Number of eligible adults (ages 18-59) in the household.

This is done by weighting each case proportionately to the number of eligible adults in the household. This is usually done in such a way that the constructed weights sum to the number of cases.

We also provide a weight (constructed by Martin Frankel, NORC's chief sampling statistician) that allows for combining the

oversample and cross-section cases while simultaneously adjusting for household size and for nonresponse (post-stratification adjustment):

RWEIGHT SAMPLE WEIGHT FOR RESPONDENTS

This weight is scaled to sum to the total combined sample size of 3432.

For further discussion of the NHSLs sample and the measures contained in this dataset, please see:

SEXUAL PARTNERS

The following measures are based upon information provided by the respondent in the "Spouse/Cohab" (section 2) and/or "Partner Last Year" (section 4) rosters, as well as the section on their most recent sex partner.

PNAME1 to PNAME28	This set of items corresponds to questions 2.2 and 4.2 in the questionnaire. PNAME1-PNAME4 are reserved for the respondent's two most recent sexual partners, the respondent's first spouse/cohab partner, and most recent spouse/cohab partner as applicable. PNAME5 through PNAME28 have been allocated to hold information on any other sexual partners. The actual names of each partner have been replaced by a three digit partner identification number. These identification numbers will be used to match other measures (e.g. LNAME) to specific partners.
SPTYPE1 to SPTYPE28	This set of items indicate whether the corresponding partner is a spouse/cohab, a recent sexual partner (within the past year), or both. Therefore, this item can be used to determine whether or not section 2 ("Marriage and Cohab") and/or section 4 ("Partner Identification and 1 Year Sexual Activity") contain additional information on this particular sexual partner.
SPSCFR1 to SPSCFR28	This set of items indicate whether or not the corresponding partner is a spouse/cohab and if so, if this partner is the respondent's first spouse/cohab, last spouse/cohab, or neither.
SP2PLY1 to SPS2PLY28	This set of items indicate whether the corresponding partner was identified as the respondent's primary sexual partner during the last year (see items 4.12-4.13), secondary partner (items 4.54-4.55), or neither.
LNAME	This item (question #5.1) is a three digit code linking partner identification number to the respondent's most recent sexual event. All items in section 5 ("Last Event") of the questionnaire correspond to the sexual partner who has been assigned this three digit code.
MARST	Marital Status COHAB Cohab Status
SCOMIT	Indicates omission of Section 2 "Spouse/Cohab".
PLYOMIT	Indicates omission of Section 4, "Partner Last Year".
OMITPRIM	Indicates omission of "Primary Partner Choice".
OMITSEC	Indicates omission of "Secondary Partner Choice".
LEOMIT	Indicates omission of "Last Sex Event".

C O L L A P S E D M E A S U R E S

Responses to the following items have been collapsed as indicated by their assigned value labels.

RES14	Question 1.7 -- Type of place respondent was living when R was 14 years old.
FAMILY14	Question 1.8 -- With whom R was living at age 14.
FAMWHY	Question 1.8a -- Why R was not living with own mother or father
NUMBRO & NUMSIS	Question 1.14 -- How many brothers did R have. 1.14a -- How many sisters did R have.
LEFTHOME	Question 1.19 -- Age at which R first left home.
FIRSTJOB	Question 1.22 -- Age at which R got his/her first job?
WORKLAST WORKTYPI & WORKHRS	Question 1.25a -- Number of hours R worked for pay last. 1.26a -- Number of hours R would typically work. 1.30 -- Hours R works in a normal week.
SPRES1 thru SPRES28	Questions 2.10 and 2.12 combined for each of 28 possible sexual cohabitation partners -- Did cohabitation period end?
NUMPREG	Questions 3.1 and 3.2 combined -- Number of pregnancies (women) R or (men) R's partners had by R in the past.
BIRTHS	Question 3.3 -- Number of children ever had (live births).
EDLEVEL1	Highest grade/year of schooling completed (DEGREE, collapsed).
MILSTCAT MILEDCA JAILACAT	These measures are the collapsed (categorical) alternatives to items #1.20A, 1.20B, and 1.21B as indicated by their value labels. They represent the start and end dates of the respondent's military experience (if any) and the age at which the respondent was first confined, if ever.
INCCATT INCCATZ INCCAT1A to INCCAT6A	Information on household income (section SAQ No. 1) has been collapsed into income level categories as indicated by their value labels. INCCATT and INCCATZ correspond to total household income, where INCCATT is non-missing only if _every_ subcategory of income (INCCAT1A-INCCAT6A) contains a valid response and INCCATZ is non-missing if _any_ subcategory of income is valid.

A D D I T I O N A L V A R I A B L E S

CASEID	Unique case identifier
GENDER	This measure was recorded by the interviewer and was not asked of the respondent in this survey.
FAMTOT	Number of family members in household. FAMKIDS Number of related kids (under 18) in the household.
SIZE	These measures are based upon the respondent's address as recorded in item 1.6 of the questionnaire. They were constructed using the procedure used in NORC's General Social Survey (GSS).
REGION	
SRCBELT	
XNORCSIZ	
AGE	Age in years was derived from the interview date and the respondent's date of birth.
PRESTIGE	These measures are calculated from the respondent's occupation and father's occupation responses. They are based upon procedures used in NORC's General Social Survey (GSS).
PAPRES14	
CURRELIG	These measures represent the respondent's current religion (composite of RELIG and DENOM) and religion at age 14 (based on RELIG14 and DENOM14). The Protestant category is broken down into two subcategories, "Protestant Type I" and "Protestant Type II", with Type I Protestants constituting more mainstream denominations and Type II Protestants representing more conservative/fundamentalists groups. A discussion of this breakdown can be found in Appendix 3.1a of THE SOCIAL ORGANIZATION OF SEXUALITY (Laumann, et. al., 1994).
REL14	
PART12	These measures are based upon the items in SAQ No. 2 and sections 2 and 4 of the questionnaire. Construction of these measures is discussed in Appendix 5.1A of THE SOCIAL ORGANIZATION OF SEXUALITY (Laumann, et. al., 1994). P18S (discrete) and PRT18S (categorical) are constructed from question 1 of SAQ No. 2 and represent the number of sex partners since age 18. P18 is an additional discrete measure which was constructed from both the responses in SAQ No. 2 and section 2 of the face-to-face questionnaire ("Marriage and Cohab").
P18	
P18S	
PRT18S	
POOR	These measures are based on the 1992 census defined poverty line, as calculated from both their income and household composition information.
RICH	
POVINDEX	
ETHNIC	This is a measure which combines the respondent's race and ethnicity information into one measure.

SECTION 4: PARTNER IDENTIFICATION AND 1 YEAR SEXUAL ACTIVITY  
(USE LIFE HISTORY CALENDAR "LHC")

Now I am going to be asking some questions about your sexual activity during the last 12 months. People mean different things by sex or sexual activity, but in answering these questions, we need everyone to use the same definition. Here, by "sex" or "sexual activity", we mean any mutually voluntary activity with another person that involves genital contact and sexual excitement or arousal, that is, feeling really turned on, even if intercourse or orgasm did not occur.

In answering these questions, please include all persons or times in the last 12 months where you had direct physical contact with the genitals (the sex organs) of someone else and sexual excitement or arousal occurred. Certain activities such as close dancing or kissing without genital contact should NOT be included. Also, this set of questions does NOT refer to occasions where force was used and activity was against someone's will.

1. Thinking back over the past 12 months, how many people, including men and women, have you had sexual activity with, even if only one time?

!__!__!__!

NONE. . . . 0 SKIP TO BOX 6A, SECTION 6, p. 6.1

2. Since I will be asking some questions about (this/these) sexual partner(s), please tell me a first name or some other way to refer to (this person/each of these people).

(IF NECESSARY: You may refer to them in any way you want -- first name, initials, nicknames. I just need some way to refer to these partners so that when I ask you some follow-up questions we both know whom we are talking about).

(IF MORE THAN "9" PARTNERS IN Q. 1: Please begin with the person you consider to have been your most important or primary sexual partner during the last 12 months?)
